

WHAT IS ACCESS MANAGEMENT?

Delta US 50 and SH 92 Access Plan

“Access management is the systematic control of the location, spacing, design, and operation of driveways, median openings, and street connections to a roadway.”

Access Management Benefits:

• Safety

- Reduces the number of accidents
- Provides safe access to businesses

• Increased Ability to Accommodate Traffic Demands

- Reduces travel times/smoothier traffic flow
- Less air pollution

• Good Access Management is Good for Business

- Preserves property values
- A more efficient roadway system captures a broader market area
- Provides a more predictable and consistent development environment

• Encourages Use and Development of Local Streets

- Focuses through traffic on the highway
- Provides circulation options for local traffic on the local street system

• Enhanced Corridor Appearance

- Easily locate businesses
- Opportunities for streetscaping/landscaping
